Three Wishes

I have been granted three wishes. I am very excited about them. I think my life is going to change a lot with these three wishes.

My three wishes are as follows: First I want to have a big house. Second I want to be strong and third, I want to be able to write with both hands.

I have my first wish because I want more space. I think I would be happy and my family would be happy too. I want this wish to come true soon.

I have my second wish so I can move heavy things. I can help with moving the furniture onto the moving truck. I want it to come true soon.

For my final wish, I wish I could write with both hands so when one of my hands is tired, I can switch to the other hand. I want this wish to come true soon.

These are my three top wishes.
