

Island Surprise

Derek and his brother, David wanted to look for the treasure on an island. One day, the two brothers sailed their boat to set off for a little island. The weather was good enough for this journey. The two brothers were over the moon since they thought that they could find a lot of treasure. If they found a lot of treasure, they would be affluent men.

All of a sudden, the weather turned bad. There was a strong wind and a heavy rainfall. Unfortunately, the two brothers' boat capsized and they fell into the sea. It was at that critical moment, they swam as hard as they could to a nearby island. They were frightened.

After a while, they wrote 'SOS' on the beach of the island. Luckily, a helicopter flew over the island and saw the signal. The men from the helicopter quickly rescued them and sent them to the hospital. They thanked for the people who saved them. The two brothers had a lesson that they shouldn't go out to the sea without adequate security devices. What an unforgettable day!
