

My father

This is Isscar Hon. He is my super father. He is very tall and thin. I love him because he is a real hero. He is my friend and always gives me inspiration in my life.

My father is a store manager. He works hard to manage his staff and store operations. He works at Donki Donk Japan Company. It is in Tuen Mun. He goes to work by MTR because the MTR station is near my home. He loves his job because he can make more money and stay very busy at work.

I like my dad's job so well because I can eat Japanese food. I do not want to be a store manager because it is so busy and so tired. My father is hard-working. I love my father so much because he protects me from strangers and the society and he loves me the most in the world.
