

An unforgettable day in the theme park

Hi Joyce,

How are you? Something happened to me two days ago. My parents and I were going to the new theme park because I got the first place in the exam. We were all so excited! When we arrived, we saw a long queue that as long as the longest snake in the universe! We had to wait in that line to buy three tickets and we had to wait for hours.

After we had bought the tickets, we went to see the roller coaster. I couldn't ride on it because I was too short, such a shame! I was amazed by the details on the rides but I was so mesmerized that I didn't notice that my wallet fell out.

We had lots of fun. Almost the end of the trip, we went to the souvenir shop. As I was paying for my gifts, I noticed that my wallet went missing! I was nervous and scared I didn't know what to do! My parents and I searched and searched but we had no idea where it went. The wallet was very important to me! It was my favourite wallet.

Fortunately, a staff member found my wallet and heard we were searching for it so he gave it back to me. After this trip, I was inspired to have the same kind and generous heart that staff member has. I learnt a lesson that I should always help people in need.

Love,
Kenny
