## Skiing is such a Blast!

I really enjoy snow!

Last Winter I went to Hokkaido for skiing. It was a sunny day with beautiful powder snow on the mountain. My ski tutor, Ruth, helped me put my skis on. Then I tried gliding on the snow. It was so much fun! Ruth guided me to a gentle slope and I learned how to stop: 'French fries to pizza slice!'

I fell on the snow several times but I only felt the soft and fluffy snow! I sat on the chairlift with Ruth and we went to the top of the mountain.

After getting off the chairlift and with Ruth's help, I skied down the slope with a big smile on my face!
