

A picnic

The Lee family went on a picnic last Sunday. They wanted to have a picnic because the little brother, Tom, got good results in his test and they haven't had picnic for a year. They went to the country park for picnic and went there by minibus. They all felt very excited.

After the Lee family got off from the minibus, they had a little walk and they arrived the country park. First, they put the mat on the ground and they took the food out. There were a lot of yummy food, such as sandwiches and some fruits. Then they started eating.

They were satisfied after the meal. They played badminton together with a kid called Sam. Dad and Mum were taking photos. They left the desserts on the mat.

Suddenly, three monkeys jumped out and took all their food and their bags! The Lee family was shocked. They tried to chase the monkeys. However, the monkeys ran away. Then the Lee family told the park keeper about the monkeys. The park keeper said the monkeys always steal food from the visitors. The Lee family had learnt a lesson that they should not leave anything alone in the park if there are monkeys around.
